**NEVADA AND ARIZONA**

The Houston Post discusses the proposal to link together Arizona and Nevada, as follows:

"It is said that a large number of citizens of Arizona are in favor of annexing that territory to the state of Nevada, but it is very likely that Nevada will object for the same reason that Arizona declined to vote in favor of annexation to New Mexico. That is to say, Nevada's population would be hopelessly outnumbered by the Arizonians and Nevada's government would be dominated by them. It was because Arizona did not wish to be dominated by the greater population of New Mexico that it declined to vote for single statehood.

"To create a state with the territorial peculiarities of Arizona and Nevada would be preposterous. Its shape and distances would violate every consideration of symmetry and would be a nuisance to its inhabitants who might have business with the state government. Suppose in the event of such a union the capital were located on the line of the Southern Pacific in southern Arizona, where the great bulk of the population resides, how would the Nevada contingent fare? Suppose Nevada should insist on retaining Carson City as the capital of the enlarged state, how would Arizona fare?

"The only solution of the statehood question is to admit Arizona as a separate state and leave Nevada alone as the champion blunder of our state-building experience. We feel sure that after the next presidential election there will be no trouble in ending the statehood difficulty for all time. The fear, which the Republican politicians have entertained, that the new state

might go Democratic, will no longer vex them and opposition to their separate admission will fade away.

"Both Arizona and New Mexico are destined to be great states in time. Irrigation is making headway in both territories and large areas of desert land are being made productive. As for Nevada, there are evidences of a revival of the mining industry and perhaps in time it may again become as populous as one of the large counties of Texas.

The bulk of this expenditure was fifty millions to the French company and the Panama government for canal property, right of way and franchises and three millions for material and supplies.

Naquin is going to move.

There are a great many people who have slight attacks of indigestion and dyspepsia nearly all the time. Their food may satisfy the appetite, but it fails to nourish the body simply because the stomach is not in fit condition to do the work it is supposed to do. It can't digest the food you eat. The stomach should be given help. You ought to take something that will do the work your stomach can't do. Kodol for Indigestion and Dyspepsia, a combination of natural digestants and vegetable acids, digests the food itself and gives health and strength to the stomach. Pleasant to take. Sold by Hanna's Drug Store.

Don't neglect your stomach. At the first indication of trouble take something that will help it along in its work of digesting the food you eat. Kodol for Indigestion and Dyspepsia will do this.
